StartUP@Taipei Leads Top 10 New Startups to Advance into Thailand

August 22, 2023 | By [Techsauce Team](#)

StartUP@Taipei participated for the first time in the Techsauce Global Summit 2023, a prominent startup event in Thailand. This year, Techsauce attracted nearly 15,000 attendees, including participants from countries such as the UK, Hong Kong, Japan, and Thailand, with over 500 exhibiting startups. Led by StartUP@Taipei, ten promising Taiwanese startups in the fields of AI, smart cities, ESG, IoT, and digital technology explored the local entrepreneurial ecosystem in Thailand. Throughout the exhibition, these teams garnered significant interest from potential clients, distributors, partners, and investors. Among the ten startups, Aiello, through a pitch contest organized by the hosts and Beacon Venture Capital, left a lasting impression on the audience with their product. Additionally, StartUP@Taipei organized several companies visits to help the teams understand the local entrepreneurial ecosystem, business environment, relevant regulations, and culture.

Furthermore, to enhance mutual communication and exhibition logistics, a team dinner was organized prior to the start of the event for these ten startup companies to network.
